Beta 9666									High Suç
Crystal M623									
SES 958									
SV 863									CLS

**Blacked out spaces are *not available*.**

\*SMBSC will be 100% Tach 45 and Rhizoctonia treated seed for 2018

\*The seed companies all have minimum orders of each variety, size, and treatment combinations. We will be asking them to prioritize seed variety processing according to the size of the orders. Special treatments and/or combinations that do not reach the minimum order may need to be changed
